

main

modelTestSetterGetter

Model::setName

```
graph LR; main --> modelTestSetterGetter; modelTestSetterGetter --> ModelSetName[Model::setName];
```

The diagram illustrates a sequence of three components connected by arrows. The first component is a box labeled 'main'. An arrow points from 'main' to a second box labeled 'modelTestSetterGetter'. Another arrow points from 'modelTestSetterGetter' to a third box labeled 'Model::setName'. The third box is shaded gray, while the first two are white with black borders.
