

myFlow::equation

```
graph LR; A[myFlow::equation] --> B[Flow::getSource]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'myFlow::equation'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Flow::getSource'. Both boxes have a thin black border.

Flow::getSource
